PRINCIPAL'S MESSAGE

You are all aware that 1990-91 has been my first year as a principal and first year at Lawton. Whenever a person has a change in their job or their position, there are bound to be disruptions. Thanks to you, the students, and thanks to the staff, these have been minor and the school is operating efficiently and well. The large majority of the student population is experiencing success in academics, interpersonal skills and self-esteem. The number of students in the Z-L Club grows each month and the number of student discipline visits to the office is decreasing.

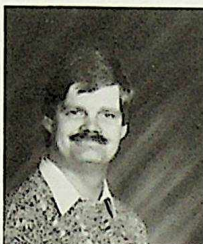

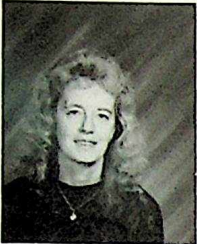

I would like to take this opportunity to thank you all for making my first year at Lawton such a wonderful learning experience. I look forward to 91-92 to bigger and better achievements by you, the students, and wish the grade nine students every success in high school.
